

Media & Publishing Suite

The ultimate media editor. It features the most innovative tools for content creation, editing, and scheduling. Its interface is designed to deliver content fast and efficiently.

Content Creation

Create, import, layer, edit, manage and preview with intuitive content creation tools.

Layered Content

Layer content to create messages with impact. Key text over images, animations, and video.

Visual Effects

Utilize a variety of transition effects like scale, rotate, and fade in/out to create dynamic content.

Built in Apps

Display customized time, temperature, date, numerals/characters, and variable data.

Advanced Scheduling

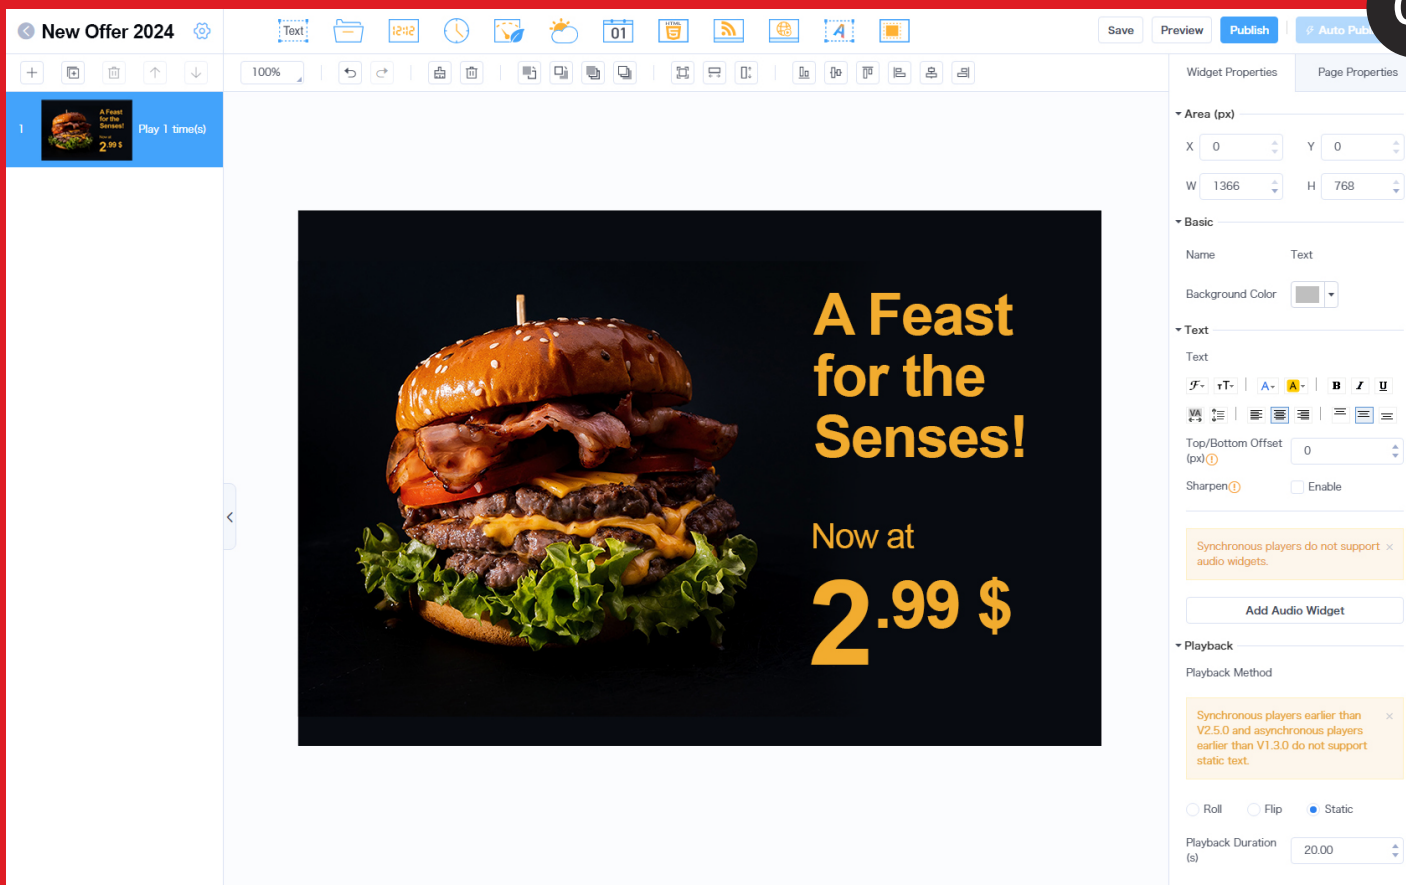

Schedule down to the minute for one or multiple displays.

Display Controls

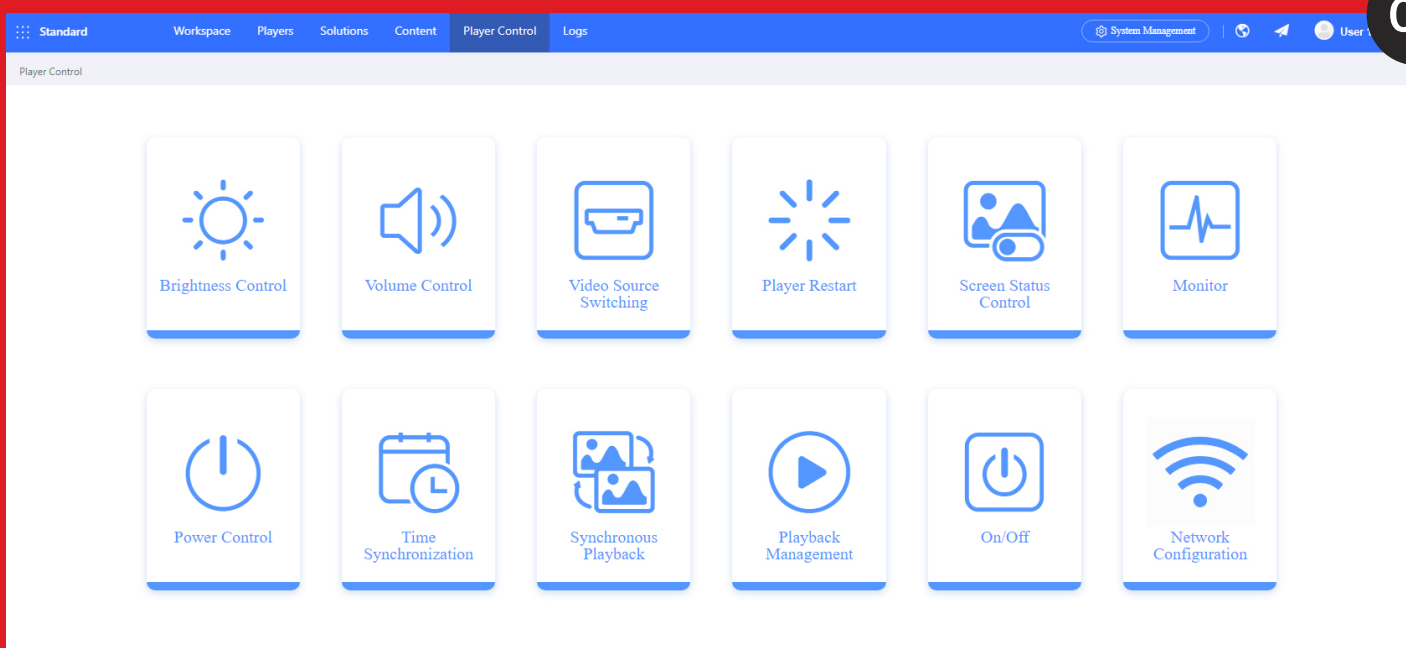

Control, network, and adjust displays and settings.

01

Content Creation

Create, import, layer, edit, organize and preview with intuitive content tools. Manage effects, apps, variable data and frame duration.

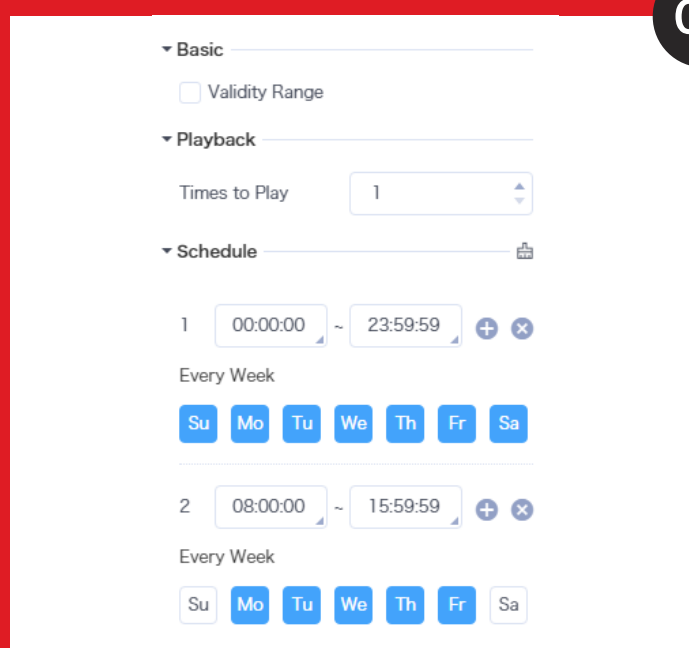

02

Display Controls

Control, network, and adjust displays and settings. Monitor and adjust display connectivity, temperature, and brightness.

Beyond Advanced. Beyond Powerful.

03

Advanced Scheduling

Schedule down to the minute for one or multiple displays. Create, import/export, edit and preview. Group scheduling and upload, log played files, and view display communication status.
